

EOSC-Nordic + e-IRG delegates meeting

Legal Issues

POLICIES, LEGAL ISSUES & SUSTAINABILITY

IN A CROSS-BORDER ENVIRONMENT

POLICIES AND PRINCIPLES

Identify & map the **open science policies** & resource provisioning principles applied in the Nordic and Baltic countries.

SERVICES & RESOURCES

Investigate **models, roles and responsibilities** for the coordinated provisioning and delivery of **EOSC services and resources** at national level

LEGAL CHALLENGES

Identify current and potential **legal hurdles** associated with the sharing of data and resources across national borders. Suggest solutions.

COORDINATE AND ALIGN

Discuss and coordinate policy activities, and advise on directions the national initiatives should take to align with relevant EOSC policies.

WP2 Task 2

- Partners,
 - Lead: NORDUnet
 - Participants: SNIC, CSC, SIGMA2, UH, UT/ETAIS, DeiC, UICE, RTU, VU
- *T2.2.1 Assessment of cross-border collaboration models*
 - NORDUnet CSC, UT/ETAIS, SNIC
- **T2.2.2 Legal issues**
 - **UH, SIGMA2, SNIC, UT/ETAIS, DeiC, UICE, RTU, VU**
- *T2.2.3 Roles and responsibilities in the overall EOSC delivery chain*
 - NORDUnet, CSC, UT/ETAIS, SNIC

Cross Border Collaboration

Task 2.0 Coordination of the work package activities

D2.1 Open science policies and resource provisioning in the Nordic and Baltic countries (first report)

D2.1

D2.5 Open Science policies and resource provisioning in the Nordic and Baltic countries (second report)

D2.5

D2.7 Open Science in the Nordics: recommendations on legal issues

D2.8

D2.8 Open Science policies and resource provisioning in the Nordic and Baltic countries (final report)

Task 2.1 Open science policies & resource provisioning in the Nordic and Baltic countries

D2.3 Open Science in the Nordics: legal insights

D2.3

D2.2 Cross border collaboration models – the Nordic experience

D2.7

D2.6 Cross-border collaboration in the context of EOSC

D2.9 Sustaining the coordination of EOSC national initiatives at Nordic level

Task 2.2 Opening up and delivering services in a cross border environment

MS2.1 First policy workshop

MS2.1

MS2.2 Second policy workshop

MS2.2

MS2.3 Consensus on post-project sustainability plan

MS2.3

MS2.4 Third policy workshop

MS2.4

Task 2.3 Fostering a coordinated policy approach towards EOSC

D2.9

Legal Matter Deliverables

- D2.3 Open Science in the Nordics: legal insights
 - August 2020
 - Assess the legal frameworks in the Nordic and Baltic countries with regard to the implementation of EOOSC standards and policies. The sharing and safe processing of both open and “restricted” data from across borders will be in scope
- D2.7 Open Science in the Nordics: recommendations on legal issues
 - August 2021
 - Provide recommendations with regard to the implementation of EOOSC standards and policies in the Nordics

Scoping & Questions

- Current scoping activity
 - Assess types of legal questions that are most important for EOSC and for data sharing
 - Assess existing cases useful for documenting opportunities and challenges
- Questions
 - Legal matters of particular relevance to the e-IRG roadmap?
 - Scoping: Subjects of special relevance for e-IRG?
 - Are there known issues we should look at?
 - Are there less understood issues we should focus on?
 - Connection to Infrastructure Commons and e-IRG Landscape Analysis?
 - Types of documentation and recommendations most useful for e-IRG
 - Roadmap, timing
