

WP5: Climate pilot

FAIR activities: M4M and FIP workshops

Background/ motivation: FAIR and the Nordic climate research community

FAIR: **W**hat? + **W**hy?

FAIR: **H**ow? + ...?

EOSC-Nordic: WP4 & WP5 + NICEST2

Two hands-on workshops run by the [GO FAIR foundation](#)

- Metadata for Machines (M4M): Dec 08 & 09, 2021
- FAIR Implementation Profile (FIP): Sept 02 & 07, 2022

Nordic climate research community: M4M workshop

An opportunity to learn the principles of **machine readable metadata**, and gain **practical experience** on climate relevant examples/use cases.

- [M4M general description](#) - introduction to **existing tools** and **services**
- [EOSC-Nordic climate M4M report](#)

Personal Reflection:

- Importance of **machine actionability**

Nordic climate research community: FIP workshop

FIP: A collection of machine-readable human agreements on the use of **FAIR Enabling Resources**

- [FIP general description](#)
- **EOSC-Nordic climate FIP report - to be made public soon**

Personal Reflection:

- Practicality of the **FIP wizard**
- **Analytics** and **convergence**

Reflections and future

FAIR: **W**hat? + **W**hy?

FAIR: **H**ow? + **...**?

Reflections and future

+ ...?

- Governance
- Sustainability
